Key Economic Indicators

Population and Labor Force (1395)

Population	79.7 million
Urban	58.2 million
Rural ¹	21.4 million
Population Growth	1.2 percent
Population Density	48.3 per sq km
Active Population (1395, Q1)	25.8 million
Unemployment Rate (1395, Q1)	12.2 percent
Urban	13.7 percent
Rural	8.3 percent
Male	10.3 percent
Female	20.3 percent
15-29 years old	24.9 percent
15-24 years old	27.8 percent

Source: Statistical Center of Iran (SCI).

¹ Includes non-resident population.

Real Sector (1393)

GDP Growth (1383=100)

Oil	3.0 percent
Non-oil	2.8 percent
Performance of 1393 (current prices; billion Rls.)	
GDP (at basic price)	10,807,477
Gross Fixed Capital Formation	2,886,932
Private Consumption Expenditures	5,586,451
Public Consumption Expenditures	1,181,023

Changes in Consumer Price Index (CPI) of Goods and Services (1390=100)

Twelve months ending Khordad 1395 compared with same period previous year (inflation rate)	9.7 percent
Khordad 1395 compared with previous month	1.2 percent
Khordad 1395 compared with same month previous year	6.8 percent

External Sector (million US\$) (First three months, 1395)

Current Account Balance	5,231
Trade Balance (goods account)	6,522
Exports (FOB)	18,905
Imports (FOB)	12,383
Total External Debt (end of period)	7,571
Exchange Rate (US\$/IRR)	
Interbank Market (average)	Rls. 30,358

Monetary Sector (growth rate, percent) (Khordad 1395 compared with Esfand 1394)

Liquidity (M2)	4.2
Money (M1)	-0.2
Quasi-money	4.8
Non-public Sector Deposits	4.9

Government Fiscal Position (trillion Rls.) (First three months, 1395)

Revenues	211.2
Expenses	368.8
Disposal of Non-financial Assets	44.3
Acquisition of Non-financial Assets	1.4
Net Lending/Borrowing	160.4

Tehran Stock Exchange (First three months, 1395)

Tehran Stock Exchange Price Index (TEPIX) (end of period)	72,615.0
Value of Shares and Rights Traded	Rls. 155.6 trillion
Volume of Shares and Rights Traded	67.2 billion

¹ Includes "hotels and restaurants", "transport and storage", "communication", "education", "health and social work", and "other community, social and personal services activities".

² These two major groups were considered as one group, under the title of "transport, storage, and communication" before the change of base year from 1383 to 1390.

³ Compilation of the non-oil exportable goods price index is carried out based on the Iranian rial local price of goods and its parity to dollar at free market rate. In 1391, remarkable rise in this index was mainly due to sharp increase in the parity rate of the US dollar vis-à-vis the Iranian rial.

1394 (year-end) ⁶	7-22	10-22	17-22	—	—	—	—		Rate of return on facilities ¹					
1395 (end-Khordad)	7-20	10-22	15-22	—	—	—	—		Rate of return on facilities ¹					

¹ Rate of return on facilities extended for transaction (non-PLS) contracts. ² Based on MCC Approval on Dey 19, 1391, profit rate of rial facilities for export sector was lowered by 2 percent compared to other sectors' rial facilities. The eligibility criterion for export facilities was the Letter of Guarantee by Exports Guarantee Fund. The mentioned Approval was communicated to public and private banks (excluding Gharz-al-hasaneh banks) and credit institutions under Circular No. 91/294711 dated Bahman 4, 1391. ³ According to Monetary, Credit, and Supervisory Policies of Banking System approved on Dey 20, 1390, lending rate on facilities extended under non-PLS contracts was set at 14 percent for credits up to 2 years maturity and 15 percent for credits of longer term maturity. Lending rate on facilities extended for Islamic contracts under Mehr Housing Program was set at 11 percent for the construction period of new projects and 12 percent for installment sale after the completion of projects. Lending rate on facilities extended for installment sale contracts in the housing sector was set at 13 percent. Based on Article 2, the decision on annual provisional profit rate of term investment deposits and general and special Certificates of Deposit (CDs) would be taken on banks' discretion. ⁴ The rate of special one-year CDs of Bank Sepah and special two-year CDs of Karafarin Bank was set at 20 percent.

⁵ Based on Article 1, Monetary and Credit Policy for 1393, upon agreement between banks, credit institutions, and CBI on Ordibehesht 8, regarding the provisional banks' deposit rates, the MCC approved the rate for one-year deposits at a maximum of 22.0 percent. Based on Article 2, maximum lending rate on banking facilities extended under non-PLS contracts was set at 22.0 percent. Based on Note 1, lending rate on loans extended to the housing sector under Bank Maskan's installment sale contracts was set at 16.0 percent and under the Housing Savings Fund Program, 14.0 percent. According to Note 2, lending rate on facilities extended for Islamic contracts under Mehr Housing Program was set at 11.0 percent for the construction period of new projects and 12.0 percent for installment sale after the completion. ⁶ According to MCC Approval on Ordibehesht 8, 1394, maximum lending rate on loans extended under non-PLS contracts was set at 21.0 percent and expected maximum profit rate of PLS contracts at the beginning of conclusion of contracts between banks and credit institutions and their clients was set at 24.0 percent. The ceiling on provisional profit rate of deposits was set at 20.0 percent, proportionate to the maturity of deposits (with a maximum maturity of one year). However, based on the Council's Approval on Bahman 27, maximum lending rate on loans extended under non-PLS contracts was set at 20.0 percent and expected maximum profit rate of PLS contracts, 22.0 percent. Banks' provisional deposit rate for one-year deposits was set at 18.0 percent at most and for short-term deposits of less than three months, 10.0 percent.

¹ Excludes commercial banks' branches abroad.

² In 1392, the data related to the six banks of "Iran Zamin Bank", "Resalat Gharz-al-hasaneh Bank", "Middle East Bank", "Kish International Free Zone Bank (IFB)", "Iran-Venezuela Bi-National Bank (IVBB)", and "Ghavamin Bank" as well as two non-bank credit institutions of "Kosar Finance and Credit Institution" and "Askariye Credit Institution" were added to money and banking data. Moreover, consolidated financial statements of "Salehin Finance and Credit Institutions" and "Pishgaman Finance and Credit Institution (Ati)" have been included in the financial statement of "Ayandeh Bank". The addition of these newly covered banks and credit institutions has taken place in two phases for which Economic Trends Nos. 74-78 include only the first phase of data coverage. Given that the end-Esfand 1392 covers all newly licensed institutions and that the banking data from Farvardin to Bahman 1393 were also adjusted to be comparable with base 1392 data, hence the published data in Economic Trends Nos. 74, 75, 76, 77, and 78 (Q3 and Q4, 1392 and Q1, Q2, and Q3, 1393) for Esfand 1392 to Bahman 1393 were adjusted to be consistent with regard to institutions under coverage. Economic Trends Nos. 79-84 include the revised figures. Accordingly, percentage changes related to months Esfand 1392 through Bahman 1393 are not comparable with previous years. Contents of this footnote apply to all monetary and credit aggregates mentioned in pages 18 through 20.

APPENDIX

Monetary and Credit Policy

Guideline on Monetary and Credit Policy in 1395 (2016/17), approved by the Money and Credit Council (MCC) at 1215th Meeting on Bahman 27, 1394 (February 16, 2016), was dispatched to banks and credit institutions as follows:

- ❖ MCC welcomed the issuance of CBI Circular No. 94/314931 dated Dey 30, 1394 (January 20, 2016) regarding the determination of banks' provisional deposit rates and emphasized the need for reconsideration of these rates, the more deliberate execution of Usury Free Banking Law, implementation of those guidelines by the banking system, and better coordination of CBI supervisory rules of those guidelines.
- ❖ The Council approved and supported the recent measures adopted by banks and non-bank credit institutions in terms of adjusting banks' provisional deposit (profit) rates, based on CBI Circular, to a maximum of 18.0 percent for one-year deposits and a maximum of 10.0 percent for short-term deposits of less than three months (maturity).
- ❖ The Council emphasized the need for CBI to adopt the necessary measures aimed at lowering banks' lending rates, commensurate with lower inflation, lower interbank market rates, decline in banks' reserve requirements, and gradual decline in banks' deposit rates, and adopted the following:
 - The maximum lending rate on loans and facilities extended by banks and non-bank credit institutions under non-PLS contracts is set at 20.0 percent.
 - The expected maximum profit rate of PLS contracts concluded between banks and non-bank credit institutions and their clients is set at 22.0 percent. Banks' and credit institutions' lending of facilities, at higher rates (higher than the approved ceilings) for PLS contracts, is subject to provision of feasibility studies by banks and credit institutions to CBI and the CBI approval thereof.
