² Compilation of the non-oil exportable goods price index is carried out based on the Iranian rial local price of goods and its parity to dollar at free market rate. In 1391, remarkable rise in this index was mainly due to sharp increase in the parity rate of the US dollar vis-à-vis the Iranian rial.

¹ Rate of return on facilities extended for transaction (non-PLS) contracts. ² Based on MCC Approval on Dey 19, 1391, profit rate of rial facilities for export sector was lowered by 2 percent compared to other sectors' rial facilities. The eligibility criterion for export facilities was the Letter of Guarantee by Exports Guarantee Fund. The mentioned Approval was communicated to public and private banks (excluding Gharz-al-hasaneh banks) and credit institutions under Circular No. 91/294711 dated Bahman 4, 1391. ³ According to Monetary, Credit, and Supervisory Policies of Banking System approved on Dey 20, 1390, lending rate on facilities extended under non-PLS contracts was set at 14 percent for credits up to 2 years maturity and 15 percent for credits of longer term maturity. Lending rate on facilities extended for Islamic contracts under Mehr Housing Program was set at 11 percent for the construction period of new projects and 12 percent for installment sale after the completion of projects. Lending rate on facilities extended for installment sale contracts in the housing sector was set at 13 percent. Based on Article 2, the decision on annual provisional profit rate of term investment deposits and general and special Certificates of Deposit (CDs) would be taken on banks' discretion. ⁴ The rate of special one-year CDs of Bank Sepah and special two-year CDs of Karafarin Bank was set at 20 percent. ⁵ Based on Article 1, Monetary and Credit Policy for 1393, upon agreement between banks, credit institutions, and CBI on Ordibehesht 8, regarding the provisional banks' deposit rates, the MCC approved the rate for one-year deposits at a maximum of 22.0 percent. Based on Article 2, maximum lending rate on banking facilities extended under non-PLS contracts was set at 22.0 percent. Based on Note 1, lending rate on loans extended to the housing sector under Bank Maskan's installment sale contracts was set at 16.0 percent and under the Housing Savings Fund Program, 14.0 percent. According to Note 2, lending rate on facilities extended for Islamic contracts under Mehr Housing Program was set at 11.0 percent for the construction period of new projects and 12.0 percent for installment sale after the completion. ⁶ According to MCC Approval on Ordibehesht 8, 1394, maximum lending rate on loans extended under non-PLS contracts was set at 21.0 percent and expected maximum profit rate of PLS contracts at the beginning of conclusion of contracts between banks and credit institutions and their clients was set at 24.0 percent. The ceiling on provisional profit rate of deposits was set at 20.0 percent, proportionate to the maturity of deposits (with a maximum maturity of one year). However, based on the Council's Approval on Bahman 27, maximum lending rate on loans extended under non-PLS contracts was set at 20.0 percent and expected maximum profit rate of PLS contracts, 22.0 percent. Banks' provisional deposit rate for one-year deposits was set at 18.0 percent at most and for short-term deposits of less than three months, 10.0 percent. ⁷ Based on the MCC Approval on Tir 8, 1395, lending rate on non-PLS contracts as well as PLS contracts concluded between banks and their clients was set at 18 percent. Lending rate on investment facilities extended by Bank Keshavarzi Iran was set at 15 percent and on other facilities, 18 percent. ²In 1392, the data related to the six banks of "Iran Zamin Bank", "Resalat Gharz-al-hasaneh Bank", "Middle East Bank", "Kish International Free Zone Bank (IFB)", "Iran-Venezuela Bi-National Bank (IVBB)", and "Ghavamin Bank" as well as two non-bank credit institutions of "Kosar Finance and Credit Institution" and "Askariye Credit Institution" were added to money and banking data. Moreover, consolidated financial statements of "Salehin Finance and Credit Institutions" and "Pishgaman Finance and Credit Institution (Ati)" have been included in the financial statement of "Ayandeh Bank". The addition of these newly covered banks and credit institutions has taken place in two phases for which Economic Trends Nos. 74-78 include only the first phase of data coverage. Given that the end-Esfand 1392 covers all newly licensed institutions and that the banking data from Farvardin to Bahman 1393 were also adjusted to be comparable with base 1392 data, hence the published data in Economic Trends Nos. 74, 75, 76, 77, and 78 (Q3 and Q4, 1392 and Q1, Q2, and Q3, 1393) for Esfand 1392 to Bahman 1393 were adjusted to be consistent with regard to institutions under coverage. Economic Trends Nos. 79-85 include the revised figures. Accordingly, percentage changes related to months Esfand 1392 through Bahman 1393 are not comparable with previous years. Contents of this footnote apply to all monetary and credit aggregates mentioned in pages 18 through 20.
