Export Price Index in Iran

Khordad 1397

(1390 = 100)

The Export Price Index (**XPI**) increased 5.1 percent in Khordad 1397. The index level of 443.2 was 84.9 percent higher than in Khordad 1396.

During the first three months of the current Iranian year, the XPI rose 67.5 percent compared to the similar period in 1396.

The XPI has advanced 34.2 percent over the past twelve months.

In Khordad, the animal products group index moved up 6.1 percent, which was mainly due to the increases in the prices for yogurt, shrimp, frozen fish, and sheep assorted casing.

The vegetable products group index turned up 5.6 percent. The mentioned advance was attributed to the increases in the prices for saffron, pistachio, date, shelled almond, and liquorice extract powder. In this group, the price for raisin decreased.

The 13.8 percent increase in the animal or vegetable fats and oils group index was mainly due to the rises in the prices for soya oil and palm oil.

The prepared foodstuffs, beverages and tobacco group index moved up 6.6 percent, largely due to the increases in the prices for tomato paste, biscuit and wafer, cake, non-cacao chocolate, ice cream, fruit juice, potato chips, chewing gum, chocolate, and soft drink.

During the mentioned month, the group index for mineral products went up 5.1 percent. Rises in the prices for propane, butane, industrial oil, copper

concentrate, cement, paraffin wax, and bitumen were the major reasons for this advance.

The products of the chemical or allied industries group index rose 5.2 percent. Higher prices for methanol, styrene, ammonia, caustic soda, "detergent powders and liquids", dodecyl benzene, molybdenum oxide, glue, alkyd anti-corrosion primer, soap, benzene, shampoo, and urea fertilizer were the main factors for the mentioned rise.

The 6.1 percent increase in the plastics and articles thereof, rubber and articles thereof group index was led by advances in the prices for low density polyethylene, high density polyethylene, motorcycle tire, polyvinyl chloride, and polystyrene while the decline in the price for plastic hoses was also considerable.

During this month, increase in the price for processed sheep skin led to the rise in the group index for skins and leather and articles thereof by 5.5 percent.

In Khordad, the group index for wood and articles of wood turned up 9.2 percent.

Mostly as a result of increasing in the prices for machine-made carpet, gunny, and rug, the textiles and textile articles group index moved up 1.2 percent, over this month. In contrast, the price for hand-woven carpet declined in this group.

The footwear group index went up 4.3 percent, largely due to the increases in the prices for "sandal with uppers of rubber or plastics" and "shoe with uppers of rubber or plastics".

The articles of stone group index advanced 4.9 percent. The rise was driven by increasing prices for "tile and ceramic", float glass, building stone, and sanitary porcelain.

As a result of increasing in the prices for cathode copper, hot coil iron, iron beam, galvanized pipes, lead ingot, and aluminum ingot, the base metals and articles of base metal group index increased 4.1 percent. In this group, the price for zinc ingot decreased.

Advances in the prices for air cooler, cable, and gas water heaters, caused 5.0 percent rise in the machinery and mechanical appliances, electrical equipment group index.

The vehicles and associated transport equipment group index turned down 4.4 percent over this month, mainly due to the decrease in the price for tractor, while the rise in the price for car radiator was also considerable.
