"A billion" means a thousand million; "a trillion" means a thousand billion.

In all tables, components may not sum to total because of rounding.

The year 1395 corresponds to 2016/17 (starting on March 20, 2016 and ending on March 20, 2017).

The Iranian year 1402 corresponds to 2023/2024 (starting on March 21, 2023, and ending on March 19, 2024).

The third quarter of the Iranian year 1402 starts on September 23, 2023 and ends on December 21, 2023.

Published in: June 2024

Key Economic Indicators

| Population and Labor Force | | |
|---|------|------------|
| Population (1402) | 85.3 | million |
| Urban areas | 65.4 | million |
| Rural areas 1 | 19.9 | million |
| Population Growth | 0.7 | percent |
| Population Density | 51.8 | per sq. km |
| Economically Active Population (1402, Q3) | 26.8 | million |
| Unemployment Rate (1402, Q3) | 7.6 | percent |
| Urban areas | 8.2 | percent |
| Rural areas | 5.7 | percent |
| Women | 14.2 | percent |
| Men | 6.2 | percent |
| Population of 18-35 years old | 14.4 | percent |

Source: Foreign Exchange Statistics and Research Department, CBI

² Refers to the change in the foreign assets of the CBI (excluding special and clearing accounts).

¹ Classification of the external debt under the headings of short-term and medium- and long-term is based on the original maturity. Moreover, the interest on actual obligations on an accrual basis is included in short-term debt.

² Total external debt, including \$1,401.1 million arrears, amounted to an approximate \$6,542.8 million at the end of Azar 1402.

¹ The difference in data on non-oil exports in this table with those presented in "Current Account" table is due to value adjustments as well as the differences in the classification and coverage of data released by Customs Administration.

² Figures related to 1397 (2018/19) and the years before exclude natural gas condensate. Figures for 1398 (2019/20) onward include natural gas condensate. Therefore, calculation of the percentage change in 1398 (2019/20) compared with 1397 (2018/19) is not possible.

¹ Telegraphic Transfer

Deposit and Lending Rates (percent)

| | Provisional profit rate of term deposits | | | | | | |
|-------------------|--|--|----------|----------|------------|------------------------------|--|
| | Short-term (ordinary) ¹ | Special short-term (three- month and six-month) | One-year | Two-year | Three-year | Rate of return on facilities | |
| 1399 ² | 10 | 12 and 14 | 16 | 18 | N/A | 18 ³ | |
| 1400 | 10 | 12 and 14 | 16 | 18 | N/A | 18 | |
| 1401 ⁴ | 5 | 12 and 17 | 20.5 | 21.5 | 22.5 | 23 | |

¹ Based on Circular No. 97/344336 dated Dey 1, 1397 (December 22, 2018), the benchmark for the payment of profit on ordinary short-term deposits was changed from a daily basis to a monthly one, calculated based on the minimum balance in each month.

² Based on the Approval passed in the 1297th Meeting of the MCC on Tir 24, 1399 (July 14, 2020), in line with the goal of preserving and strengthening the value of national currency, the CBI changed the type of term deposits as well as the ceiling on the provisional profit rate of term deposits. On this basis, three-month and six-month special short-term deposits as well as two-year deposits were reintroduced and the ceilings on the provisional profit rates of these deposits were set at 12, 14 and 18 percent, respectively.

³ Based on the Approval passed in the 1220th Meeting of the MCC on Tir 8, 1395 (June 28, 2016), the rate of return on banks' and credit institutions' non-PLS contracts as well as the expected profit rate for PLS contracts concluded between banks (or credit institutions) and their clients was set at a maximum of 18 percent annually. It is to be noted that the rate of return on investment facilities extended by Bank Keshavarzi (Agriculture Bank) was set at 15 percent. Moreover, the rates of return on facilities extended out of the housing savings funds of Bank Maskan (including Housing Savings, First Time Home Buyers, and Housing for the Youth Accounts) were set within a range of 6 to 11 percent annually.

⁴ Upon the reintroduction of three-year deposits, the profit rates were determined based on the Approval passed in the 1350th Meeting of the MCC and communicated to the banking network by virtue of Circular No. 01/280373 on Bahman 10, 1401 (January 30, 2023). Accordingly, the rate of return on banks' and credit institutions' non-PLS contracts was set at a maximum of 23 percent and the expected profit rate for PLS contracts concluded between banks (or credit institutions) and their clients was set at 23 percent. Moreover, the rates of return on facilities extended out of the housing savings funds of Bank Maskan (including Housing Savings, First Time Home Buyers, and Housing for the Youth Accounts) were set within a range of 6 to 11 percent annually.

Excludes commercial banks' branches abroad. With reference to Letter No. 2958 dated Farvardin 8, 1398 (March 28, 2019) by the CBI's Vice-Governor for Banking Supervision Affairs and based on the Approvals by the Money and Credit Council and the Supreme Council of Economic Coordination (the Heads of the Legislative, Executive, and Judicial bodies), data related to Bank Hekmat Iranian, Kosar Credit Institution, Mehr Eqtesad Bank, Ghavamin Bank, and Ansar Bank have been included in data of Bank Sepah as of Khordad 1399 (June 2020), Mordad 1400 (August 2021), Mehr 1400 (October 2021), Azar 1400 (December 2021), and Bahman 1400 (February 2022), respectively.

² Includes public and private banks as well as non-bank credit institutions. Excludes the CBI.

³ As of Mordad 1398 (August 2019), a sum of Rls. 454 trillion worth of facilities extended by Ayandeh Bank was transferred from "current claims" heading to "other assets" heading.

⁴ Includes private banks and non-bank credit institutions.

⁵ Includes future profits and revenues.

⁶ Includes the public debt to the CBI as well as the public sector's participation papers. Figures related to the public debt to banks and credit institutions are prepared based on the data kept in the general ledgers of banks and credit institutions and are not audited.

¹ Components may not sum to total because of rounding.

² Monthly and quarterly data include the revolving funds of provinces, salary and fringe benefits of employees in provinces, and expenses. The discrepancy between the figure for the operating balance with the "revenues" and "expenses" figures is due to the fact that as of 1401, the operating balance has been calculated with the inclusion of the amount of payment on legal commitments, which has not been mentioned in this table.

³ Monthly and quarterly data include the revolving fund-credits for the acquisition of non-financial assets..

¹ The operating and non-financial balance is the sum of the operating balance and the net disposal of non-financial assets. Net disposal of financial assets is the disposal of financial assets minus the acquisition of financial assets.

² Includes the privatization of mines and the transfer of unfinished government projects to the private sector.

³ Includes the principal of government loans (domestic and foreign), utilization of the revolving fund of the Treasury, and receipts from the utilization of the National Development Fund of Iran (NDFI) for the capital increase of the Innovation and Development Fund.

¹ Excludes gold trading during 1398-1400.

Monetary and Credit Policies in 1402, Q3 (September 23, 2023-December 21, 2023)

- In the third quarter of 1402 (September 23, 2023-December 21, 2023), the CBI continued with its regular policy of conducting the Open Market Operations (OMOs) and providing standing facilities to banks (as two monetary policy tools), with the aim of managing liquidity and adjusting the interest rate with the targeted policy rate in the interbank market. Accordingly, based on its forecasts for Q3, the CBI took measures to inject liquidity in the interbank market, using the OMOs carried through scheduled weekly auctions in the form of repurchase agreements (repos).
- In order to achieve the target of broad money growth at 25 percent for 2023/24, the CBI followed in the government's footsteps in controlling broad money growth and inflation within the framework of the key strategy of "containing inflation and increasing GDP growth". This was in line with the implementation of different regulatory policies including the prudential policy of limiting growth in banks' and credit institutions' balance sheets as well as imposing penalties on banks and credit institutions violating the permissible monthly amount of the increase in their assets and liabilities by increasing the reserve requirement ratio. Thanks to all these measures, broad money growth was significantly controlled within the target set in the monetary policy framework for Q3.
- Through the 1368th Meeting of the Money and Credit Council (MCC), the CBI set the ceiling on Gharz-al-hasaneh facilities allocated to natural persons, who hold a Gharz-al-hasaneh account in the agent bank with a certain amount of money and for a certain period, at 3 billion rials. This was in line with the objectives of mobilizing Gharz-al-hasaneh resources, diversifying the facilities extended by the banking network for essential needs, and encouraging the public to deposit money in banks. On the other hand, the ceiling on Gharz-al-hasaneh facilities allocated to individuals without a Gharz-al-hasaneh account in the agent bank was set at 500 million rials. In accordance with the same approval, the ceiling on Gharz-al-hasaneh facilities allocated for financing micro-enterprises and knowledge-based companies to legal entities with a Gharz-al-hasaneh account in the agent bank was set at 7.5 billion rials. In addition, in order to facilitate the financing of pharmaceutical companies and expedite the process of allocating facilities, the MCC took measures to increase the credit ceiling to 40 percent of the banks' capital base, in line with the relevant bylaw. Moreover, the allocation of facilities to these companies was exempted from the restrictions attributed to the negative capital base of some agent banks. To provide the liquidity required by pharmaceutical companies, following the elimination of the preferential exchange rate of 42,000 rials per US dollar aimed at economic reform, the MCC raised the ceiling on facilities extended to pharmaceutical companies from 90 percent to 200 percent of the sales revenue of the year before.
- In accordance with the approvals of the 1373rd Meeting of the MCC and in implementation of the National Housing Action Plan, the CBI raised the total amount of facilities extended by the banking network for security deposit from a maximum of 400 trillion rials to a maximum of 800 trillion rials. Furthermore, as per the approval by the MCC through its Meeting on December 19, 2023, the individual ceiling on facilities allocated for the reconstruction and refurbishment of rural housing as well as houses in cites with less than 25,000 residents was raised from 2 billion rials to 3.5 billion rials with an interest rate of 5 percent.

➤ Other policy measures adopted by the CBI in Q3 included increasing the value of facilities extended to knowledge-based companies; raising the individual ceiling on rewards on Gharz-al-hasaneh deposits from 1 billion rials to 2.5 billion rials; increasing the Gharz-al-hasaneh facilities granted to customers by multiple branches of Gharz-al-hasaneh funds from 500 million rials to 1 billion rials; increasing the ceiling on micro-facilities allocated to natural persons (business owners) from 2 billion rials to 5,705 million rials; and raising the ceiling on micro-facilities allocated to legal entities from 5 billion rials to 9,425 million rials, without obliging them to fulfill the requirements of Note (1), Article (186), Direct Tax Law.
