Wholesale Price Index in Iran

Dey 1386

(1376 = 100)

The Wholesale Price Index (**WPI**) went up 1.7 percent in Dey 1386. Showing the index point of 356.0, the **WPI** was 12.5 percent higher than the similar month in 1385.

During the first ten months of the current Iranian year, the Wholesale Price Index rose 14.7 percent compared to the similar period in 1385.

The Wholesale Price Index increased 15.0 percent during the last twelve months leading to Dey 1386, compared with the similar preceding period.

In Dey, the food group index went up 1.8 percent, which was mainly attributed to the rise in the indices of “mutton”, “the Persian Gulf fish”, “unprocessed milk”, “egg”, “pulses”, “rice (home produce)”, “fruits with seeds and pits”, “fresh vegetables”, “dates (domestic use) and sesame seed”. In this group, the indices of the “Caspian Sea fish and citrus” declined.

The beverages and tobacco group index and the mineral fuels and related materials group index had no change.

The crude materials, inedible, except fuels group index and the chemical and petrochemical products group index moved up 1.8 percent and 0.4 percent, respectively.

The manufactured goods classified chiefly by materials group index went up 1.8 percent, which was mainly due to the rise in the indices of “tire and tube”, “fiber and thread”, “hand-made woven carpets and rugs (domestic use)”, “iron beam (home

produce)”, “exported iron hot coil”, “iron wire and iron belt (home produce)”, “imported bolt and nut”, “imported tools”, “metal door and window” and “electrode (home produce)”. In this group, the indices of “exported copper”, “pure aluminum” and “plump ingot” decreased.

The advance in the indices of “imported compressor and imported telephone set” mainly caused 2.3 percent increase in the group index of machinery and transport equipment. In this group, the price of “copper cable” went down.

The miscellaneous manufactured articles group index went up 3.7 percent. This advance was mainly due to the rise in the index of “footwear”.

In the special groups, the farm, livestock and fishing products group index and the building materials group index moved up 2.3 percent and 1.2 percent, respectively.
