SYMBOLS

—	Negligible fraction
..	Figures not available
*	Figures are estimated
□	Figures are provisional
⊞	More than 500 percent increase
▲	Figures are revised
*	The figure is not a significant decimal fraction
∅	Calculation of percentage change is not possible
●	Figure has been rounded
○	Percentage change has been calculated from round figures
FYDP	Five-Year Development Plan

Key Economic Indicators

Population and Labor Force (1387)

Population ⁽¹⁾ (million)	72.6
Urban	50.9
Rural	21.7
Population Growth	1.5 percent
Population Density	44 per Sq Km
Active Population	22.9 million
Unemployment Rate	10.4 percent
Literacy Rate ⁽²⁾ :	
6 years and over	86.9 percent
6-29 years	95.6 percent

(1) Figures related to population (urban and rural) are preliminary.

(2) President Deputy for Strategic Planning and Control

Real Sector (1387, Q2)

GDP Growth (1376=100)	
Oil	2.3 percent
Non-oil	2.7 percent
GDP Growth (4 th FYDP target) (1381=100)	
Average Period	8.0 percent
1387	8.4 percent
Performance of 1387, Q2 (current prices; billion Rls.)	
GDP (at basic price)	1,065,946
Gross Fixed Capital Formation	263,354
Private Consumption Expenditures	350,807
Public Consumption Expenditures	114,765

Inflation Rate (1383=100)

1387	25.4 percent
4 th FYDP target: (1381=100)	
Average Period	9.9 percent
1387	7.9 percent

External Sector (1387) (million US\$)

Current Account Balance	23,987
Trade Balance	32,039
Exports	100,572
Imports (FOB)	68,533
Total External Debt (end of period)	21,502
Exchange Rate (IRR/US\$)	
Interbank Market (average)	Rls. 9,574

Monetary Sector (1387)(growth rate, percent)

Liquidity (M2)	15.9
Money (M1)	-1.9
Quasi-money	24.6
Non-public Sector Deposits	11.7

Government Fiscal Position (1387) (billion Rls.)

Revenue	379,338.5
Expense	564,290.0
Disposal of Non-financial Assets	216,636.7
Acquisition of Non-financial Assets	213,495.8
Net Lending / Borrowing	181,810.6

Tehran Stock Exchange (1387)

Share Price Index (end of period)	7,966.5
Value of Shares Traded	Rls. 137,385.4 billion
Number of Shares Traded	47,975.4 million

Q3
Q4

Source: Economic Accounts Department, CBI

(1) Quarterly data are not seasonally adjusted and are subject to revision.

(2) Discrepancy in GDP and the total value-added of sectors is due to imputed bank service charges.

(3) Discrepancy in total is due to value-added in “water, electricity and gas” sub-sector.

(1) Until 1386, it excludes electricity generated by large manufacturing establishments and private institutions but since the beginning of 1386, it includes electricity generated by power plants affiliated to the private sector.

(2) Includes crude oil export and net export of oil products.

(3) Components may not sum to total because of rounding.

(1) Excludes contingent obligations, i.e. opened letters of credit not yet consigned. Considering the mentioned obligations, the total external obligations (actual and contingent) amounted to \$45.7 billion at end-1387. Moreover, classification of external debt is based on original maturity.								
(2) To conform Iran's external debt data with international standards, since the end of first half 1384, obligations under project finance whose repayments rely on projects' proceeds, which were formerly classified as contingent obligations, are now classified as external debt.

(1) Components may not sum to total because of rounding. (2) It includes tax on oil performance. (3) In 1384, other revenues and expenses including the figure for transparency in the price (subsidy) of energy carriers amounted to Rls. 266,875.7 billion. Meanwhile, in 1384, other revenues include provisional profit on government's share in the total value of crude oil production. (4) In monthly and quarterly data, it includes revolving funds of provinces, considered as Treasury payment. (5) In 1387, it includes the figure for transparency of energy carriers (subject of Single Article of the Budget Law for 1387). (6) According to the Amended Law of Tables 4 and 8, 4th FYDP Law and the Budget Law for 1386 (approved on 07.09.1386), the government was authorized to withdraw the foreign exchange equivalent of Rls. 9.5 trillion from the OSF to finance the supply of gas to rural areas. (7) Based on the Supplement of Budget Law for 1387, the government was authorized to withdraw the foreign exchange equivalent of Rls. 45 trillion from the OSF to finance the imports of basic goods (Rls. 20 trillion) and compensate for the losses resulted from drought and frostbite (Rls. 25 trillion). Of this amount, Rls. 38 trillion is related to expenses (current expenditures) and Rls. 7 trillion to acquisition of non-financial assets. (8) According to the Amendment to the Budget Law for 1387 (approved on 30.11.1387), the government was authorized to increase expenditures up to Rls. 59,570 billion provided that the ceiling of government general budget does not increase (Budget Law for 1387 and its Supplement). Of this amount, Rls. 10 trillion was financed out of economization and reduction in expenditures, Rls. 12 trillion out of reduction in credits for the acquisition of financial assets, and Rls. 37,570 billion out of reduction in credits for the acquisition of non-financial assets.

Summary of the Current Monetary Policy

Monetary and Credit Policies in 1387 (2008/09)

A. Supervisory-Policy Package of the Banking System

On the basis of Supervisory-Policy Package of the banking system for 1387 (2008/09) as declared to public and non-public banks, and credit and financial institutions on Mordad 3, 1387 (July 24, 2008) to be implemented, the key credit and monetary policies for 1387 are as follows:

1. Given the widespread impacts of inflation on economic indicators, achieving the inflation target was regarded as the CBI main objective. Other policies such as supporting exports and granting export bonuses are to be designed on the basis of inflation rate for 1387 (Article 18).

2. Banking facilities and services are provided on the following bases in 1387 (Article 6):

2.1. Lending rate on the banking facilities extended for transaction contracts is set at 12 percent.

a. Lending rate on the banking facilities extended to SMEs and agricultural projects, with government subsidy, is set at 10 percent, and government will pay 2 percent subsidy. Priority for the payment of subsidy will be determined by the Government Economic Commission. This subsidy will not be paid if the targets are not realized and the principal and the profit should be paid by the bank client.

b. The commission of the contracts is set at 3 percent, and banks are authorized to reduce this rate and improve the quality of banking services.

2.2. Profit and Loss Sharing contracts: These contracts are concluded in the form of civil partnership, without a preset lending rate (settlement is based on the real rate of return after implementation of project) and with the bank's supervision as a partner in the respective affairs. The minimum profitability of the project is set at the rate which is equal to the lending rate for transaction contracts excluding the subsidy paid to each activity.

2.3. Services rendered to investors could be in the form of introducing their projects to those willing to participate in the purchase of corporate commercial papers (for working capital of manufacturing units) or corporate participation papers (for investment projects), convertible or non-convertible to shares within a legal framework. Repayment of capital is not guaranteed by the bank and the papers will be transacted on the secondary market before maturity. Bank's revenue is solely received from the commission of services rendered to each party.

2.4. Development banking aims at mobilizing government resources in the form of administered funds, government deposits with the bank with the stipulation of their use, or agency contracts to develop less privileged regions or the economic sectors supported by the government.

3. In order to diversify credit instruments and methods, contracts are structured on the basis of a floating rate of return (Article 15).

3.1. Facilities extended through civil partnership are truly on a floating basis, acquired at the real rate of return each year.

3.2. Rate of return on investment deposits are on a floating basis, paid at the real rate of return each year.

4. The maximum commission for investment deposits is set at 3 percent (Article 16).

5. Banks' reserve requirement ratio with the Central Bank in 1387 is shown in the respective table (Article 20).

6. The Central Bank is authorized to issue participation papers up to 50 percent of the papers to be substituted. Moreover, the Bank shall design and utilize more efficient and proper instruments to streamline management of the money market (Article 42).

Government and governmental organizations may issue participation papers in 1387 according to their regulations and in the real sense of participation. The profit rate which is commensurate with the profit received from investment projects and selling of these papers before the maturity date could be achieved only on the stock exchange.

Reserve Requirement Ratio

Type of deposit	(percent)
Current	20
Gharz-al-hasaneh	10
Short-term	17
One-year	17
Two and Three-year	15
Four-year	13
Five-year	11
Other deposits	20

7. In order to create an appropriate ground for better allocation of credits, in line with balanced growth, sectoral allocation of banking facilities is shown in the respective table (Article 3).

8. Banking facilities shall not be extended for the purchase of housing units, both the site and the superstructure. Facilities shall be solely extended for construction of housing units with regard to the terms specified (Article 4).

9. Banking facilities and credits shall be paid out of Gharz-al-hasanah sight deposits, savings deposits, term investment deposits, shareholders' capital (government or private shareholders) and/or interbank funds. Banks should mobilize their own resources, without overdraft from the CBI (Article 7).

Sectoral Allocation of Banking Facilities

Sector	Share in total credits (percent)
Agriculture, water, and processing industries	25
Manufacturing and mining	33
Construction and housing	20
Trade and services	15
Export	7

9.1. Any overdraft from the CBI shall be for the sole purpose of resolving temporary problems, according to the table of banks' liquidity. Overdrafts will be controlled and regulated per annum on the following bases (Note 1):

First: imposing a high overcharge payment of 34 percent

Second: applying administrative control and management by the Central Bank

9.2. Banks are authorized to create obligations proportionate to their accessible funds with regard to management of sources and uses of funds as per the banking principles and standards as well as the regulations declared by the CBI. Moreover, creation of any obligations in excess of banks' acquirable resources and relying upon overdraft from the Central Bank are prohibited (Note 5).

10. Banks receive Gharz-al-hasanah deposits and extend Gharz-al-hasanah loans worth RIs. 100 million per each applicant for procurement of essential needs (Article 8). The commission received by banks shall be a maximum of 3 percent per annum to finance the costs incurred by rendering services and rewarding depositors.

11. Banks are solely authorized to extend Gharz-al-hasanah deposits for Gharz-al-hasanah facilities; thereby allocation of such deposits for investment purposes shall be prohibited (Article 9).

12. Banks finance large projects through partnership (consortium) (Article 12).

13. Banks are authorized to extend balance of Gharz-al-hasanah current deposits as short-term Gharz-al-hasanah loans. It is noteworthy that such deposits are classified as short-term Gharz-al-hasanah resources (Article 19).

14. In order to provide an appropriate instrument for public daily transactions and to reduce the effects of abundant liquidity resulting from issuance of interbank checks, according to the Cabinet approval, since Ordibehesht 1387 (as of April 20, 2008), Iran checks are solely issued by the CBI and the printing costs will be paid by the Central Bank. The CBI will receive 100 percent rial equivalent of the mentioned checks from commercial and specialized banks (Article 22).

15. Banks' privatization program and also establishment of foreign banks' and banking institutions' branches in Iran are under process. In this regard, the Central Bank has taken necessary measures to step up the process of issuing licenses (Article 30).

B. The Amendment Law on Paragraph H, Article 10, 4th Plan Law of the Islamic Republic of Iran approved in 1383 (2004/05)

Single Article – Paragraph H, Article 10, 4th Plan Law of the Islamic Republic of Iran is revised as follows:

H–In order to implement monetary policies, the Central Bank of the Islamic Republic of Iran is authorized to issue participation papers within the framework of the Law for Usury (Interest) Free Banking approved on 08.06.1362 (29.08.1983), following the approval of the Money and Credit Council (MCC), to mop up excess liquidity in case it is required.

The above-mentioned Law including the Single Article was ratified by the Parliament through its public session on Wednesday 22.08.1387 (12.11.2008) and was approved by the Guardian Council on 06.09.1387 (26.11.2008).

Fourth Five-Year Development Plan (4th FYDP) 1384-1388 (2005/06-2009/10)

The 4th FYDP was formulated with a view to realities of the Iranian economy and with regard to the experiences gained from the implementation of the previous five-year development plans. Creating appropriate ground for rapid economic growth, establishing proactive interaction with the global economy, enhancing economic competitiveness, restructuring the government, improving standards of living, maintaining social justice, and providing national security are among the main objectives of the 4th Plan.

The following are some of the highlights of the 4th Plan:

Monetary and Credit Policies

1. The composition of members of the Money and Credit Council (MCC) is changed and the Governor of CBI is appointed as the chairman of the MCC.

2. Composition of the General Assembly of the CBI is changed and the President is nominated as the chairman of the Assembly. Governor of the CBI is appointed by the President upon the approval of the Assembly.

3. Since the beginning of the 4th Plan, any allocation of banking facilities by the government in the form of sectoral or regional, as well as priorities concerning the sectors and regions shall be carried out through giving incentives to the banking system. Obligations of banks to provide facilities at lower rates are permissible provided that they are financed by the government subsidy or administered funds.

4. To secure economic growth, curb inflation and enhance productivity of the banking system, the government is bound to reduce its indebtedness to the Central Bank of Iran (CBI) and other banks during the 4th Plan. Moreover, it is determined that increase in the balance of banks' directed credits shall be reduced by 20 percent per year during the 4th Plan, compared to the approved figure for 1383 (2004/05).

5. To create an appropriate and sound financial structure in banks and facilitate banks' presence in international financial markets, the international standards and requirements concerning banks' Capital Adequacy Ratio (CAR) shall be observed, being determined by the MCC. The government is obliged to recapitalize banks whose CARs are less than the level determined by the MCC.

6. To implement monetary policy, CBI is authorized to issue participation papers and other similar instruments in compliance with Islamic contracts upon approval of the Parliament.

7. To maintain public confidence in the banking system, a deposit insurance system shall be established.

Foreign Exchange and Trade Policies

8. To regulate the country's external debt and obligations, it is determined that the net present value of total external debts and obligations should not exceed \$30 billion by the last year of the 4th Plan. The commercial and specialized banks are authorized to finance investment projects of private sector through international financial market, without government guarantee, provided that the above-mentioned ceiling be observed.

9. To streamline export policies and eliminate the barriers, the High Council on Non-oil Export Promotion will be established. Moreover, levying of any tax or tariff for non-oil exports is prohibited during the 4th Plan. All non-tariff barriers are either eliminated or converted to tariff.

Fiscal Policy

10. To stabilize the level of utilization of crude oil export revenues and its conversion to other reserves and investment, and to streamline the activities foreseen in the Plan, it is stipulated that the "Oil Stabilization Fund" (OSF) be established. The sources of the OSF include the surplus of oil income in excess of figures projected in this Law, in addition to the balance carried over from the 3rd Plan. Utilization of the OSF to finance deficit resulted from non-oil revenues is prohibited, and the government is authorized to use OSF merely in case of reduction in oil export revenues as compared to projected figures, and when it would not be possible to meet the approved appropriations through the general revenue and disposal of financial assets. Moreover, the government is authorized to extend up to a maximum of 50 percent of the balance of OSF to the private sector in the form of forex-denominated facilities to make investment and partially finance entrepreneurial projects in manufacturing, agriculture and other sectors that could generate foreign exchange.

11. To establish fiscal discipline, the government is required to increase the ratio of expenses financed through non-oil revenues in such a way as to enable the government to meet its expenses entirely through tax and other non-oil revenues by the end of the 4th Plan. Moreover, financing budget deficit through borrowing from banks and the CBI is prohibited. Granting any discount, privilege or exemption to the taxpayers other than those approved by the relevant laws is not permissible.

12. To secure the continuity of the privatization program, the government is authorized to transfer, liquidate and merge public corporations.

Capital Market

13. The Stock Exchange Council is required to take measures for geographical expansion of stock exchange, establishment and expansion of specialized markets such as commodity exchange, establishment of over-the-counter securities market, and interaction with regional and global stock exchanges. The CBI and the Ministry of Economic Affairs and Finance are obliged to pave the way for foreign investment attraction in the country's capital market as well as the internationalization of the Tehran Stock Exchange (TSE).

	Economic Indicators During the 4th FYDP					(percentage change)
	1384	1385	1386	1387	1388	Period average
GDP (at constant 1381 prices)	7.1	7.4	7.8	8.4	9.3	8.0
