(1) Excludes contingent obligations, i.e. opened letters of credit not yet consigned. Considering the mentioned obligations, the total external obligations (actual and contingent) amounted to \$40.9 billion at the end of Khordad, 1389. Moreover, classification of external debt is based on original maturity.

(2) Includes actual obligations of project finances. Meanwhile, interest on actual obligations on accrual basis is included in the mentioned data.

### Summary of the Current Monetary Policy

#### Monetary and Credit Policies in 1389 (2010/11)

In 1389 (2010/11), the Supervisory-Policy Package of the banking system, comprising 6 Chapters and 21 Articles, was approved and dispatched to banks and credit institutions. Chapters 2 and 3 of this Package are devoted to monetary and credit policies of Iran as follows:

##### Monetary Policy

**Article 2-** Provisional annual profit rates of banking deposits during the investment period of the year 1389 (2010/11) will be made according to the respective table:

**Note 1:** Provisional profit rate of deposits in free special economic zones will be the same as in the mainland.

**Note 2:** The opening of the dual-purpose accounts (connected accounts) for customers, for instance the connected term investment account and the checking account for the purpose of depositing cash into checking account when customers' checks are submitted to credit institutions, and extension of loan and credit on Profit and Loss Sharing (PLS) basis with installment repayments are not allowed.

**Note 3:** Credit institutions are obliged to set and finalize the provisional deposit rates under Islamic contracts at the end of the period based on credit institutions' profit and audited financial statement and the approval of the Central Bank.

**Note 4:** Provisional profit rate of general Certificates of Deposit (CDs) of at least one year maturity is payable at a maximum of one percentage point higher than the provisional profit rate of deposits with the same maturity upon presentation of feasibility reports and approval of the Central Bank. The rate of repurchase prior to maturity by the issuing bank will be at the usual provisional deposit rate. The issuing bank should annul the Certificate of Deposit in case it is repurchased prior to maturity.

**Note 5:** Provisional profit rate of special Certificates of Deposit is payable at a maximum of 2.5 percentage points higher than the provisional profit rate of deposits with the same maturity upon presentation of feasibility reports and approval of the Central Bank. The repurchase of special purpose CDs before the maturity date is not allowed by credit institutions.

**Note 6:** Central Bank can penalize credit institutions that violate CBI approved provisional deposit rates. The penalty would be one to five percentage points increase on legal reserve requirements for one or a number of deposits for a maximum of one year.

**Article 3-** Credit institutions' commission may vary according to various investment deposits (short-term and long-term) and must not exceed 2.5 percent. Credit institutions' board of directors should set the commission for investment deposits at the beginning of the year through media accordingly.

**Article 4-** The reserve requirement ratio of credit institutions (excluding specialized banks) in 1389 (2010/11) is determined as in the respective table. The reserve requirement ratio of public specialized banks remains the same as before.

**Note:** The excess reserve of credit institutions, after lowering the different reserve requirements of credit institutions, will be used in priority order for the purpose of credit institutions' debt payment to

#### Provisional Deposit Rate of Investment Deposits with Credit Institutions during 1389 (2010/11)

Type of deposit	Provisional deposit rate (percent)
Short-term investment (one month to less than 3 months)	6.0
Short-term investment (more than 3 months and less than 6 months)	8.0
Short-term investment (more than 6 months and less than one year)	11.0
One-year investment	14.0
Two-year investment	14.5

with the same maturity upon presentation of feasibility reports and approval of the Central Bank. The rate of repurchase prior to maturity by the issuing bank will be at the usual provisional deposit rate. The issuing bank should annul the Certificate of Deposit in case it is repurchased prior to maturity.

#### Reserve Requirement Ratio of Various Deposits in 1389 (2010/11)

Type of deposit	Reserve requirement ratio (percent)
Gharz-al-hasaneh savings	10.0
Demand and others	17.0
Short-term investment	15.5
One-year investment	15.0
Two- and three-year investment	11.0
Four-year investment	10.0
Five-year investment	10.0

the CBI, loan for working capital of productive units and incomplete projects, investment for productive units, interbank loans, and Mehr Housing Program.

**Article 5-** The profit rate of transaction contracts with a maturity of two years and less is determined at 12 percent and for more than two years, at 14 percent. The provisional profit rate of PLS contracts is set according to the Law for Usury (Interest) Free Banking and the ratios set in the contract. Meanwhile, the profit rate of the installment sale of facilities allocated to the housing sector will be 12 percent.

**Note 1:** Credit institutions are allowed to extend loan and credit on debt purchase contracts provided that the related claims realistically reflect the unit's sales of goods and services. Debt purchase contracts with any productive unit is restricted to a maximum of 35 percent of unit total sale for the year before the contract, based on the unit's approved financial statements, with a maximum profit rate of 16 percent.

**Note 2:** Extension of banking facilities at a lower lending rate is conditioned on the payment of subsidies by the government and realization of the project objectives according to the government priorities.

**Note 3:** Credit institutions can extend loan and credit to their customers in line with the Law for Usury (Interest) Free Banking and after deducing applicants' due diligence and receiving sufficient guarantees. These loans and credits shall be used for the following purposes:

1. Purchase of essential goods and services such as first-hand consumer durables from local producers and educational and health expenditures at a maximum of Rls. 30 million;
2. Loans and credit facilities for housing repair at a maximum of Rls. 50 million;
3. Auto loans at a maximum of Rls. 70 million; and
4. Loans for removal of obsolete cars and purchase of pick-ups and taxis at a maximum of Rls. 100 million.

**Note 4:** In extending facilities to customers, credit institutions have to be assured that the principal and the expected profit of the loan will be recovered when the loan installments come due.

**Note 5:** In line with the implementation of the monetary policy and to mop up excess liquidity, repurchase of debt by the CBI and credit institutions from one another prior to maturity is permissible.

**Article 6-** The CBI is authorized to issue participation papers in 1389 (2010/11) up to the ceiling approved by the Governor. Public corporations and municipalities are also authorized to issue participation papers in this year, in the framework of relevant rules and regulations, up to Rls. 50 trillion.

1. The provisional profit rate of CBI's participation papers will be determined up to 2 percentage points higher than the provisional profit rate of other deposits.
2. The provisional profit rate of participation papers issued by public and private corporations and municipalities shall be equal to the profit accrued from the investment projects, and it will be payable every three months on a daily basis. The maximum provisional profit rate of these papers is one percentage point higher than that of other deposits. The rate of repurchase of these papers prior to maturity shall be 0.5 percentage point lower than the provisional profit rate.
3. The ceiling for the participation papers of the non-public sector and corporations that are granted an operation license by the Securities and Exchange Organization is set at Rls. 40 trillion.

**Note:** Credit institutions and corporations in which credit institutions have direct or indirect roles in their management are prohibited from purchasing corporations' and municipalities' participation papers in the primary market. Credit institutions' and municipalities' purchasing of Central Bank participation papers in the primary market is permissible.

4. A minimum of 15 percent of the mobilized funds from the sales of participation papers shall be held by the agent bank as precautionary reserve for likely repurchase.

## Credit policy

**Article 7-** Credit institutions are allowed to allocate up to 20 percent of the increase in the outstanding deposits (after the deduction of legal obligations) to different economic sectors without observing the sectoral allocation ratios. However, the remaining 80 percent of the increase should be lent out according to the percentages shown in the respective table:

Sector	Share in change in the outstanding facilities (percent)
Water and agriculture	25
Manufacturing and mining	37
Construction and housing	20
Services and trade	10
Export	8

**Note:** The executive agencies in coordination with the President Deputy for Strategic Planning and Control, and the CBI are encouraged to use the incentive instruments at their disposal, such as administered funds or interest subsidy payments, in realization of sectoral allocation of credit institutions' facilities.

**Article 8-** Public banks are obligated and private banks are allowed to extend facilities to public procurement enterprises and entities for the purchase and procurement of subsidized goods and market regulation, only after issuance of guarantees by the President Deputy for Strategic Planning and Control and the consent of the CBI as collateral.

**Article 9-** In line with the implementation of the Targeted Subsidy Reform Act, the executive agencies in charge of economic sectors are encouraged to allocate and blend their administered funds with financial resources of credit institutions within an operational contract framework to facilitate credit extension to new technology projects, projects linked to water and energy consumption reform, the working capital of companies, the incomplete projects, and the renewable energy projects.

**Article 10-** Banks' facilities to the housing sector and the Gharz-al-hasaneh facilities will be governed by a regulation and guideline which will be dispatched to credit institutions after the approval of the CBI Governor.

**Article 11-** Not later than three months after dispatching of this Package, the CBI will prepare and communicate to credit institutions the regulations and guidelines governing the mechanisms for the allocation of total Gharz-al-hasaneh deposits (after deduction of legal obligations) to Gharz-al-hasaneh facilities, instruments for mobilization of short-term financing for private and public commercial banks, and the instruments for long-term mobilization of funds for the specialized banks.

## APPENDIX II

### Fourth Five-Year Development Plan (4<sup>th</sup> FYDP)<sup>(1)</sup> 1384-1388 (2005/06-2009/10)

The 4<sup>th</sup> FYDP was formulated with a view to realities of the Iranian economy and with regard to the experiences gained from the implementation of the previous five-year development plans. Creating appropriate ground for rapid economic growth, establishing proactive interaction with the global economy, enhancing economic competitiveness, restructuring the government, improving standards of living, maintaining social justice, and providing national security are among the main objectives of the 4<sup>th</sup> Plan.

The following are some of the highlights of the 4<sup>th</sup> Plan:

#### Monetary and Credit Policies

1. The composition of members of the Money and Credit Council (MCC) is changed and the Governor of CBI is appointed as the chairman of the MCC.
2. Composition of the General Assembly of the CBI is changed and the President is nominated as the chairman of the Assembly. Governor of the CBI is appointed by the President upon the approval of the Assembly.
3. Since the beginning of the 4<sup>th</sup> Plan, any allocation of banking facilities by the government in the form of sectoral or regional, as well as priorities concerning the sectors and regions shall be carried out through giving incentives to the banking system. Obligations of banks to provide facilities at lower rates are permissible provided that they are financed by the government subsidy or administered funds.
4. To secure economic growth, curb inflation and enhance productivity of the banking system, the government is bound to reduce its indebtedness to the Central Bank of Iran (CBI) and other banks during the 4<sup>th</sup> Plan. Moreover, it is determined that increase in the balance of banks' directed credits shall be reduced by 20 percent per year during the 4<sup>th</sup> Plan, compared to the approved figure for 1383 (2004/05).
5. To create an appropriate and sound financial structure in banks and facilitate banks' presence in international financial markets, the international standards and requirements concerning banks' Capital Adequacy Ratio (CAR) shall be observed, being determined by the MCC. The government is obliged to recapitalize banks whose CARs are less than the level determined by the MCC.
6. To implement monetary policy, CBI is authorized to issue participation papers and other similar instruments in compliance with Islamic contracts upon approval of the Parliament.
7. To maintain public confidence in the banking system, a deposit insurance system shall be established.

#### Foreign Exchange and Trade Policies

8. To regulate the country's external debt and obligations, it is determined that the net present value of total external debts and obligations should not exceed \$30 billion by the last year of the 4<sup>th</sup> Plan. The commercial and specialized banks are authorized to finance investment projects of private sector through international financial market, without government guarantee, provided that the above-mentioned ceiling be observed.
9. To streamline export policies and eliminate the barriers, the High Council on Non-oil Export Promotion will be established. Moreover, levying of any tax or tariff for non-oil exports is prohibited during the 4<sup>th</sup> Plan. All non-tariff barriers are either eliminated or converted to tariff.

#### Fiscal Policy

10. To stabilize the level of utilization of crude oil export revenues and its conversion to other reserves and investment, and to streamline the activities foreseen in the Plan, it is stipulated that the "Oil Stabilization Fund" (OSF) be established. The sources of the OSF include the surplus of oil income in excess of figures projected in this Law, in addition to the balance carried over from the 3<sup>rd</sup> Plan. Utilization of the OSF to finance deficit resulted from non-oil revenues is prohibited, and the government is authorized to use OSF merely in case of reduction in oil export revenues as compared to projected figures, and when it would not be possible to meet the approved appropriations through the general revenue and disposal of financial assets. Moreover, the

government is authorized to extend up to a maximum of 50 percent of the balance of OSF to the private sector in the form of forex-denominated facilities to make investment and partially finance entrepreneurial projects in manufacturing, agriculture and other sectors that could generate foreign exchange.

**11.** To establish fiscal discipline, the government is required to increase the ratio of expenses financed through non-oil revenues in such a way as to enable the government to meet its expenses entirely through tax and other non-oil revenues by the end of the 4<sup>th</sup> Plan. Moreover, financing budget deficit through borrowing from banks and the CBI is prohibited. Granting any discount, privilege or exemption to the taxpayers other than those approved by the relevant laws is not permissible.

**12.** To secure the continuity of the privatization program, the government is authorized to transfer, liquidate and merge public corporations.

## Capital Market

**13.** The Stock Exchange Council is required to take measures for geographical expansion of stock exchange, establishment and expansion of specialized markets such as commodity exchange, establishment of over-the-counter securities market, and interaction with regional and global stock exchanges. The CBI and the Ministry of Economic Affairs and Finance are obliged to pave the way for foreign investment attraction in the country's capital market as well as the internationalization of Tehran Stock Exchange (TSE).
